Hi Cally,  
BLM-Utah uploaded a new file in the google docs folder that shows the different types of ROVs that occur in the mapped blocks A through F that you shared with Nikki and I. Here's the link to the file.

[https://drive.google.com/open?id=0B\\_oAJ91rEsZpaE5CUEpKWkpBZEE](https://drive.google.com/open?id=0B_oAJ91rEsZpaE5CUEpKWkpBZEE)

Let me know if you have any questions.

Sally

Cally,

Here are the links to some additional maps added to the google folder on Grand Staircase-Escalante National Monument Background Information. These maps show existing inventories of resources and objects, which is less than 10% inventoried in the monument to-date. Also, an explanation of "What is the Staircase" also has been added to the folder with the link below.

BLM-Utah is having their GIS staff create the A-F blocks on the paper map you shared with Nikki. They will be able to overlay that layer on their maps of resources and objects next week.

Please let me know if you have questions.

Hi Cally,

Here are links to two maps that were shared with the Department in the original data call for the monuments review. Cultural, paleontological, and archaeological resource inventories have been completed in only a small percentage (less than 10%) of Grand Staircase-Escalante National Monument to-date.

Please let me know if you have questions.

Thanks, Sally
